SKERDI NELAJ

Front-End Developer

nskerdi@gmail.com | +355 69 46 70 011 | Portfolio | LinkedIn | GitHub

PROFILE

Front-end developer with 4+ years of experience building production React/TypeScript applications, currently also handling full site infrastructure, SEO, and compliance for a global law firm. Comfortable owning a project end-to-end — from UI implementation to server administration and deployment. Built the front end for an AI-driven document automation tool and has hands-on experience integrating LLM-based features into web applications.

SKILLS

Core Frontend: React, TypeScript, JavaScript, Redux, HTML5, CSS/SCSS

UI & Styling: Tailwind, Bootstrap, Material UI, Ant Design

Mobile & Cloud: React Native, Expo, AWS, CodeArtifact, microservices architecture

AI-Integrated Frontend: Built UI for an AI-driven automation tool, integrated LLM-based features (Anthropic API) into web applications

CMS & Infrastructure: WordPress, Elementor, IONOS/Plesk server administration, GDPR compliance, SEO, GA4/GTM

Other: C#, Babylon.js, Git/GitHub

WORK EXPERIENCE

Front-End Developer | Oracle Solicitors

June 2024 – Present

- **Rebooking:** Built a tool giving lawyers access to historical flight data to support legal cases involving problematic flights.
- **IT-Automation (AI):** Developed an AI-driven tool to automate the creation of legal defenses for flight-related cases. Technologies: React, TypeScript, SCSS, Tanstack, Jodit, GitHub.
- **OracleLawGlobal rebrand:** Led the rebrand and rebuild of the firm's website, and now own its ongoing development: WordPress/Elementor site management, IONOS/Plesk server administration, SSL/DNS troubleshooting, GDPR compliance, and SEO/GA4-GTM setup.

Front-End Developer | Division 5

January 2023 – June 2024

- **Circular Fashion:** Implemented new features and ongoing support for a platform where users sell, swap, or donate used clothing. Technologies: React, Redux, JavaScript, SCSS, GitHub, internal component library.
- **Osgenic:** Built a gaming web app challenging doctors to identify anatomical parts. Technologies: React, TypeScript, CSS, Babylon.js.

Front-End Developer | Engage Technology

June 2022 – December 2022

- **Binschonda:** Shipped new features and bug fixes for a web app providing everyday task support for elderly users. Technologies: React.js, JavaScript, React Router, Axios, Tailwind, CSS.

Front-End Developer | Linfa SH.P.K

April 2021 – May 2022

- **CQS:** Built an application allowing bank employees to take out payroll-deducted loans. Technologies: C#, Bootstrap 4/5, GitHub.
- **LSS:** Built a recruiting platform matching open roles to company needs. Technologies: React, Redux, TypeScript, CSS, SCSS, Material UI, GitHub.

ADDITIONAL PROJECT

- **Okko:** React Native/Expo mobile app enabling users to chat, share project ideas, post/browse open jobs, and connect with other people. Built in an AWS/CodeArtifact environment with a microservices architecture.
